Spaces & Events

The Natural Way of Meeting

Our spaces are all open to nature and opt for versatility to create new meeting methods using the energy of light and the environment as inspiring elements.

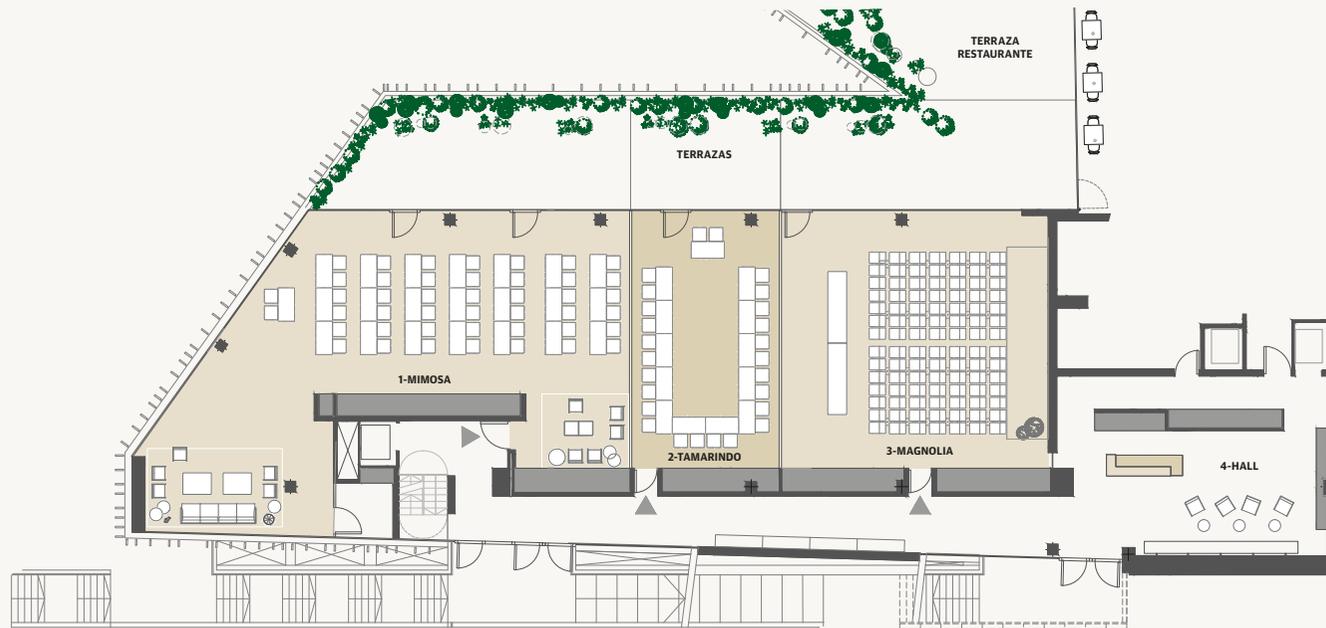

Our different rooms have been thoughtfully designed to adapt to each of our clients' needs. They are equipped with all the technical means for presentations, events, celebrations or work meetings. The spaces can also be divided in smaller areas using partition walls, with an abundance of natural light throughout. The transparent facades provide brightness, and create a fusion between interior and exterior that gives air to those who spend long days in the rooms.

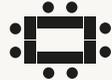

For the always necessary work breaks our culinary team can create natural and healthy food and drink options unique to your team.
