SPICY TIPS

BY CROWNE PLAZA MAASTRICHT

1. Start your meeting with a warming up!

The best way to start your meeting is, just like a sport match, to start with a warming up. Do not directly start with the match but first warm up. For example with a short quiz or a riddle to warm up you're the participants brains for a successful meeting.

2. Vary your presentation methods.

Nobody likes to watch and listen to somebody talking for hours with boring presentation sheets. Surprise your audience with alternating presentation methods and make use of pictures and videos. Make it interesting for your audience to keep them focussed. Something new? Show it! The best way to present a product or a new technique is to demonstrate it.

3. Always coffee.

Coffee is for many persons the best way to start the day. We serve a good cup of coffee but there are many more possibilities to give your audience the energy they need. We offer healthy fruit water, homemade ice tea or smoothies. And what about an ice cream car?

4. You'll never walk alone!

Sometimes it seems like a meeting lasts forever. Many hours in the same room will downgrade the focus of the participants of your meeting. Many times the break will take place in the same room and after a sandwich and a drink it's time to go ahead with the meeting. Not a good idea! Take your time to stretch your legs and take a walk with the group. When you walk out Hotel Crowne Plaza you will experience the fresh air and within a 5 minute walk you will enjoy the Stadspark.

5. Timekeeper

Avoid long discussions about the same topic with a timekeeper. Use a stopwatch to organize the timetable. Time pressure results in creative solutions.
